

MAP OF THE FLORISTIC PROVINCES OF NORTH AMERICA

ARTHUR CRONQUIST

Cronquist, Arthur (New York Botanical Garden, Bronx, NY 10458). Map of the floristic provinces of North America. *Brittonia* 34: 144–145. 1982.—A map is presented showing 13 floristic provinces and nine subprovinces in North America.

In the course of contributing to the English-language version of a book on plant geography by Academician Armen Takhtajan, I have had occasion to prepare a map of the floristic regions and provinces of North America. I now wish to put this map on record. The map is released from copyright, but we hope that anyone who uses it will acknowledge the source. The code of numbers and letters on the map is intended to mesh with the number-code in the book. It may be explained as follows:

HOLARCTIC KINGDOM.

Boreal Subkingdom.

1. Circumboreal Region.
 - 1A. Arctic Province.
 - 1B. Canadian Province.
3. Atlantic North American Region.
 - 3A. Appalachian Province.
 - 3B. Atlantic-Gulf Coastal Plain Province.
 - 3C. North American Prairies Province.
4. Rocky Mountain Region.
 - 4A. Vancouverian Province.
 - 4B. Rocky Mountain Province.

Madrean Subkingdom.

9. Madrean Region.
 - 9A. Great Basin Province.
 - 9B. Californian Province.
 - 9C. Sonoran Province.
 - 9C. 1. Baja California Subprovince.
 - 9C. 2. Sonoran Subprovince.
 - 9C. 3. Chihuahuan Subprovince.
 - 9C. 4. Tamaulipan Subprovince.
 - 9D. Central Mexican Highlands Province.
 - 9D. 1. Sierra Madre Occidental Subprovince.
 - 9D. 2. Trans-Mexican Volcanic Belt Subprovince.
 - 9D. 3. Mexican Altiplano Subprovince.
 - 9D. 4. Sierra Madre Oriental Subprovince.
 - 9D. 5. Sierra Madre del Sur Subprovince.

NEOTROPICAL KINGDOM.

22. Caribbean Region.
 - 22A. West Indian Province.
 - 22B. Central American Province.
